### **CENFIC - Vocational Training Centre for the Building Industry**

The most important training centre of the Building Industry sector in Portugal.

#### Main Aims

- Develop qualified professionals for the construction and industry sector such as: electricians, plumbers, builders, maintenance technicians and other occupations concerning the most modern management techniques and socially dignifying this area, regarding competitiveness and effectiveness in this sector.
- Develop an international CENFIC structure
- Develop good relationships with other countries
- Develop CENFIC Human Resources competence by settling a continuous training program.

#### Activity areas

##### *Training and Human Resources Consultancy*

Under constant development and renewal, the Industry and Building companies need to adapt - and sometimes anticipate - their production systems by using new technologies and adjusting their needs by developing human resources qualified and trained such as:

- Executive, managers and Technicians
- Middle management staff
- Qualified professionals (continuous training)
- Vocational training of young people and their preparation for adult and working life
- Work programmes for unemployed people
